

Announcements

This Week **Aphids**. Total aphid numbers remained at low levels this week. The graph below compares aphid numbers for this year versus the historical average. If the current trend continues, the late season peak may be smaller than average this year. At any rate, vine kill is an effective way to reduce the spread of PVY.

Aphid Trap Report For Central Oregon

Week of September 8, 2009

Trap #	Grower	Location	Number of Aphids	
			Other	Green Peach
1	COARC	P. Butte Station	3	0
